About Us

Fakealicious® Training Academy Ltd is based in Basildon, Essex & was founded by Director Jodie O'Sullivan in 2009.

Fakealicious® offers fully insurable courses accredited by Associated Beauty Therapists (ABT), The CPD Group & we are endorsed by Proqual who are ofqual recognised.

Courses are run by Jodie who is a fully qualified Teacher, Assessor & IQA with over 20 years' experience in the Beauty Industry. Classes are small, depending on the course it will be between 2-6 students, ensuring you receive the attention needed to pass your course.

We do a range of courses, some of which are for distance learning (all work done from the comfort of your own home) or in salon courses. All prices shown include VAT – no hidden extras!

Fakealicious_trainingacademy@outlook.com

About The Trainer

My names Jodie, I am a Beauty Therapist, Aesthetic Practitioner, Assessor, Teacher and IQA. I have worked in the industry for over 20 years continually learning new techniques and products, I have now even developed my own semi-permanent makeup & microneedling machines which can be purchased from the website.

I like to think of myself as friendly and approachable to all my students and clients.

As my clinic is based next to my house I can keep my prices lower than most training academies and salons whilst still using the best products on the market. I like to make my students feel at ease as well as my clients and like to build up a good relationship with them.

I started off in the beauty industry at just 15, first I worked in my local beauty salon, then going further afield to London and worked for a well-known, high end salon, progressing onto being a supervisor. I was always eager to strive and do the best I could and felt I had gained everything out of that job role, therefore it was time to move on, so at 18 I then got a job for Steiner on cruise ships working in their spa. This was such a great opportunity and I learnt so much about high end treatments, retail & customer service, it's something I would highly recommend to therapists who have the freedom to go. Once that journey ended, I went back into salons and started a mobile business on the side.

After my first daughter in 2009 I decided it was not feasible to work in salons so Fakealicious® was born!!! Once my 2nd daughter was born in 2012 this is when I got into Teaching & I loved it! I went from working in FE colleges, to private training academies. Although I loved working at other institutions, I just have always preferred working for myself and doing what I believe is the best thing for the students, so the training side of Fakealicious® started in 2015.

I love training and keeping in touch with my students after their training, I have various whatsapp groups that students are added to for support and guidance once their training is complete. I genuinely want all my students to do well!!

Some of my courses can seem quite cheap and 'too good to be true' but the simple fact is I do not have as many overheads as it's just me, the price does not reflect the training or my clinic!!

Feel free to contact me for any advice on my mobile or by email (but please remember to leave your contact details so I can get back to you)

About The Trainer

My names Kayleigh, I am a Beauty Therapist, Aesthetics Practitioner, Teacher and Assessor. I started my journey into the industry straight after leaving secondary school in 2013 and successfully completed my Level 2 Ofqual Regulated Qualification in beauty treatments. From there I slowly built up a clientele carrying out facials, waxing, tinting and nails alongside my full-time job.

I met Jodie in 2019 after booking on to a couple of facial courses, as I really wanted to pursue a career in beauty and aesthetics full-time. At the start of 2023 I saw that Jodie was hiring for an assistant, so I took the plunge and applied for the job, and here I am!

I have since completed a number of different CPD courses and Ofqual Regulated Qualifications which have enabled me to gain extensive knowledge and upskill in the treatments that I offer and now teach.

I offer a range of treatments including all things skin, wood therapy and body contouring, laser, body piercing, ear irrigation, skin boosters, skin tag removal, lashes, brows, tinting and waxing.

I currently teach Level 2 and 3 Beauty, a range of facial treatments, laser hair removal and skin rejuvenation, ear irrigation, body piercing, wood therapy and body contouring, lash lift, defined brows and brow lamination, tinting, waxing and nails.

My passion is skincare, I could talk about skin all day long!

I love my job because I get to meet new people every day and continue to build, alongside Jodie, an amazing network of practitioners who support and uplift each other.

Looking forward to meeting you!

OUR TRAINING CENTRE

A Little About Our Courses

We offer over 120 different accredited and approved Beauty & Aesthetic courses, most of them are for complete beginners without any previous experience and you will receive a recognised diploma certificate.

The reason you need an accredited course is so that you can gain insurance once you have completed your course and to start building your empire!! You can have complete confidence that we are a fully accredited company with Associated Beauty Therapists (ABT) who are one of the largest beauty insurers in the UK. Most Aesthetic courses are accredited by The CPD Group – meaning they are all fully insurable.

I am confident that the time schedule is adequate for the Diploma courses, due to the small numbers I teach. If I feel you need extra help you may be required to complete case studies or be called back to complete the course again on another date. You will find all the information you require on each individual course page, including venues, dates and prices.

We run our courses as and when people book them, we do not pick out a date and have courses set in stone, once one person has booked a course and paid their deposit, that course will then be advertised for others to book onto. If you do not see a convenient date for a certain course you can contact me and we can arrange a convenient date between us.

Once courses are booked and deposit has been paid, you will be sent a confirmation email with a link to our learning portal which will contain all information about your training, your training material, videos and test, if you are doing in salon training this all needs to be completed before you attend your practical training.

Online Training Courses

You do not need to attend the academy or be available for the time/date you book for your online training. Online training can be done within your own time schedule within a 6 month period.

All your theory work, test & video is available on our teachable online portal which you will be given a log in for.

Online learning courses do not include a kit.

You will need to read through your training manuals & watch the video to help you. For all courses you will need to send in case studies of either videos or pictures (details will be available on the learning portal) on some courses this can be used as your final work, in others it may be marked as 'practice'. Details of what you will need to complete your course will all be on the learning portal.

To send pictures & vids it will all be through WhatsApp as this is accessible for the majority of people, I'm always here to help step by step for any problems you may have, even after training.

The training prospectus will state which courses are available for online learning and their prices (but please note on the learning outcomes the 'practical' sessions and 'demonstrations' will **not** be part of your distance learning training .

Online Training Courses

Once you have booked your training you will automatically be added to a learning portal, this will contain all theory work and information on how your course will run on the day.

It also gives you information of where you can purchase products, training video & a test. Once you have worked through the learning portal and completed the test you will get an automatic certificate.

If you would like to upgrade to an accredited certificate (CPD) an extra fee is chargeable which will give you access to a tutor online and you will need to complete 2 case studies.

Read on for information on all of our In Salon Training courses!

AESTHETICS

Fakealicious®
Training Academy

Botulinum Toxin – Foundation Masterclass

Unlock the full potential of botulinum toxin treatments with our expert-led **Botulinum Toxin Masterclass**, designed for aesthetic practitioners ready to elevate their skill set. In this intensive training, you'll learn **10 essential injection patterns** that form the foundation of safe, effective, and natural-looking results. From treating frown lines to advanced lower-face techniques, you'll gain the confidence to customize your approach for every face.

Upon completion of the course, you'll receive a Certificate of Attendance; if you require an accredited certificate for insurance purposes, this is available for an additional £37 when booking. You will be required to complete a case study.

Lash Lift

The lash lift procedure has revolutionised old, inadequate perming techniques. Using silicone pads instead of perm rods, this new technique can lift, straighten or curl your own natural lashes to create a brighter, fuller, wide eyed look. No need for extensions and the associated aftercare, this will last you 6-8 weeks and can be combined with a tint to leave the mascara behind.

Learning outcomes

- Salon health, safety & hygiene (Home Study)
- Anatomy & physiology (Home Study)
- Client Consultation (Home Study)
- Sterilisation & Disinfection (Home Study)
- Contra Indications (Home Study)
