Fakealicious®
Training Academy

About Us

Fakealicious® Training Academy Ltd is based in Basildon, Essex & was founded by Director Jodie O'Sullivan in 2009.

Fakealicious® offers fully insurable courses accredited by Associated Beauty Therapists (ABT), The CPD Group & we are endorsed by Proqual who are ofqual recognised.

Courses are run by Jodie who is a fully qualified Teacher, Assessor & IQA with over 25 years' experience in the Beauty Industry. Classes are small, depending on the course it will be between 2-6 students, ensuring you receive the attention needed to pass your course.

We do a range of courses, some of which are for distance learning (all work done from the comfort of your own home) or in salon courses. All prices shown include VAT – no hidden extras!

Fakealicious_trainingacademy@outlook.com

About The Trainer

My names Jodie, I am a Beauty Therapist, Aesthetic Practitioner, Assessor, Teacher and IQA. I have worked in the industry for over 20 years continually learning new techniques and products, I have now even developed my own semi-permanent makeup & microneedling machines which can be purchased from the website.

I like to think of myself as friendly and approachable to all my students and clients.

I try to keep my prices lower than most training academies and salons whilst still using the best products on the market. I like to make my students feel at ease as well as my clients and like to build up a good relationship with them.

I started off in the beauty industry at just 15, first I worked in my local beauty salon, then going further afield to London and worked for a well-known, high end salon, progressing onto being a supervisor. I was always eager to strive and do the best I could and felt I had gained everything out of that job role, therefore it was time to move on, so at 18 I then got a job for Steiner on cruise ships working in their spa. This was such a great opportunity and I learnt so much about high end treatments, retail & customer service, it's something I would highly recommend to therapists who have the freedom to go. Once that journey ended, I went back into salons and started a mobile business on the side.

After my first daughter in 2009 I decided it was not feasible to work in salons so Fakealicious® was born!!! Once my 2nd daughter was born in 2012 this is when I got into Teaching & I loved it! I went from working in FE colleges, to private training academies. Although I loved working at other institutions, I just have always preferred working for myself and doing what I believe is the best thing for the students, so the training side of Fakealicious® started in 2015.

I love training and keeping in touch with my students after their training, I have various whatsapp groups that students are added to for support and guidance once their training is complete. I genuinely want all my students to do well!!

Some of my courses can seem quite cheap and 'too good to be true' but the simple fact is I do not have as many overheads as it's just me, the price does not reflect the training or my clinic!!

Feel free to contact me for any advice on my mobile or by email (but please remember to leave your contact details so I can get back to you)

About The Trainer

My names Kayleigh, I am a Beauty Therapist, Aesthetics Practitioner, Teacher and Assessor. I started my journey into the industry straight after leaving secondary school in 2013 and successfully completed my Level 2 Ofqual Regulated Qualification in beauty treatments. From there I slowly built up a clientele carrying out facials, waxing, tinting and nails alongside my full-time job.

I met Jodie in 2019 after booking on to a couple of facial courses, as I really wanted to pursue a career in beauty and aesthetics full-time. At the start of 2023 I saw that Jodie was hiring for an assistant, so I took the plunge and applied for the job, and here I am!

I have since completed a number of different CPD courses and Ofqual Regulated Qualifications which have enabled me to gain extensive knowledge and upskill in the treatments that I offer and now teach.

I offer a range of treatments including all things skin, wood therapy and body contouring, laser, body piercing, ear irrigation, skin boosters, skin tag removal, lashes, brows, tinting and waxing.

I currently teach Level 2 and 3 Beauty, a range of facial treatments, laser hair removal and skin rejuvenation, ear irrigation, body piercing, wood therapy and body contouring, lash lift, defined brows and brow lamination, tinting, waxing and nails.

My passion is skincare, I could talk about skin all day long!

I love my job because I get to meet new people every day and continue to build, alongside Jodie, an amazing network of practitioners who support and uplift each other.

Looking forward to meeting you!

OUR TRAINING CENTRE

A Little About Our Courses

We offer over 120 different accredited and approved Beauty & Aesthetic courses, most of them are for complete beginners without any previous experience and you will receive a recognised diploma certificate.

The reason you need an accredited course is so that you can gain insurance once you have completed your course and to start building your empire!! You can have complete confidence that we are a fully accredited company with Associated Beauty Therapists (ABT) who are one of the largest beauty insurers in the UK. Most Aesthetic courses are accredited by The CPD Group – meaning they are all fully insurable.

I am confident that the time schedule is adequate for the Diploma courses, due to the small numbers I teach. If I feel you need extra help you may be required to complete case studies or be called back to complete the course again on another date. You will find all the information you require on each individual course page, including venues, dates and prices.

We run our courses as and when people book them, we do not pick out a date and have courses set in stone, once one person has booked a course and paid their deposit, that course will then be advertised for others to book onto. If you do not see a convenient date for a certain course you can contact me and we can arrange a convenient date between us.

Once courses are booked and deposit has been paid, you will be sent a confirmation email with a link to our learning portal which will contain all information about your training, your training material, videos and test, if you are doing in salon training this all needs to be completed before you attend your practical training.

Distance Learning/Online Training

You do not need to attend the academy or be available for the time/date you book for your online training. Online training can be done within your own time schedule within a 6 month period. There is a separate Prospectus for details on this

All your theory work, test & video is available on our teachable online portal which you will be given a log in for.

Distance learning courses do not include a kit.

You will need to read through your training manuals & watch the video to help you. For all courses you will need to send in case studies of either videos or pictures (details will be available on the learning portal) on some courses this can be used as your final work, in others it may be marked as 'practice'. Details of what you will need to complete your course will all be on the learning portal.

To send pictures & vids it will all be through WhatsApp as this is accessible for the majority of people, I'm always here to help step by step for any problems you may have, even after training.

The training prospectus will state which courses are available for online learning and their prices (but please note on the learning outcomes the 'practical' sessions and 'demonstrations' will **not** be part of your distance learning training .

In Salon Training

Once you have booked your training you will be added to a learning portal, this will contain all theory work and information on how your course will run on the day.

It also gives you information of where you can purchase products after your course, training video & a test which needs to be completed before your course day.

On the day of training we will cover practical, firstly there will be a demonstration, followed by a live model/models depending on the course.

There are details supplied on the learning portal with times and details of models needed, if you cannot get models we can always arrange one for you.

Read on for information on all of our In Salon Training courses!

AESTHETICS

Fakealicious[®]
Training Academy

Botulinum Toxin - Beginners

This course is for beginners and teaches you how to safely administer Botulinum Toxin, it covers how to get your prescription & will set you up with a prescriber. You will learn how to carry out 3 areas of anti-wrinkle, frown, forehead and crows feet. On the day of training we will be using Bocouture, Day 1 will cover theory and you will carry out the treatment on 5 models, day 2 will be 14 days later where you will review your clients from day 1 and if necessary carry out more procedures if you are not feeling confident.

Please note regulations may be changing which will mean you may need to upgrade your qualification to a level 7 at some point

Learning outcomes

All theory work will be on the learning portal to complete at home before coming to your course.

Entry Requirement – Level 3 in beauty or Anatomy & Physiology as well as basic botulinum toxin

Course Duration - 5hrs

CPD - 22 credits

Course Costs – £799 incl VAT - £200 deposit is required to book this course.

Botulinum Toxin Masterclass

This is for existing therapists trained in botulinum toxin and feel they need more confidence and knowledge.

Entry Requirement – Botulinum Toxin Qualification

Course Duration - 2hrs

CPD - N/A

Course Costs – £497 incl VAT - £50 deposit is required to book this course.

Fakealicious®
Training Academy

cannula Training

This is for existing therapist wishing to learn how to use a cannula in a method they are already trained in, ie cheeks, nasal folds & marionettes. The advantage of using a blunt-tip cannula is that it causes less operative trauma to the patient. The accuracy and flexibility that cannulas provide allow practitioners to bypass blood vessels and other delicate areas of the skin. They can effectively “push” their way to the filler site instead of puncturing it, which results in less bruising and swelling.

Learning outcomes

- Salon health, safety & hygiene (Home Study)
- Anatomy & physiology (Home Study)
- Client Consultation (Home Study)
- Sterilisation & Disinfection (Home Study)
- Contra Indications (Home Study)

- Treatment Procedures (Home Study)
- Training Video (Home Study)
- Preparation of client & Pricing (Home Study)
- Test (Online – Home Study)
- Demonstration of techniques (In Salon)
- Practical (In Salon)

All theory work will be on the learning portal to complete at home before coming to your course.

Entry Requirement – Level 3 in beauty or Anatomy & Physiology as well as Basic Dermal Filler qualification

Course Duration - 3hrs

CPD - 10 credits

Course Costs – £497 incl VAT - £100 deposit is required to book this course.

Derma Fillers – Foundation

This course is for beginners and teaches you how to safely administer Dermal Filler and how to dissolve it. You will cover lips, cheeks, nasal folds, marionettes, individual lines and cannula. The training will be spread over 3 days as follows:

Day 1 – theory, dissolving & lips & individual lines

Day 2 – Nasal folds and marionettes & Cheeks, Cannular

Please note regulations may be changing which will mean you may need to upgrade your qualification to a level 7 at some point

Learning outcomes

- Salon health, safety & hygiene (Home Study)
- Anatomy & physiology (Home Study)
- Client Consultation (Home Study)
- Sterilisation & Disinfection (Home Study)
- Contra Indications (Home Study)
- Product details (Home Study)
- Aftercare (Home Study)

Course Duration - 4hrs

CPD - 10 credits

Course Costs – £497 incl VAT - £50 deposit is required to book this course.

Dermal Filler Masterclass/Confidence Boosting

This is for existing therapists trained in dermal fillers and feel they need more confidence and knowledge. Masterclasses are run for the following:

- Lips
- Cheeks
- Jaw
- Chin
- Marionettes
- Nasal folds
- cannula.

If you needed to cover all of those areas we can arrange a price for one to one training.

On the day you will cover 3-5 live models.

Entry Requirement – Dermal filler qualification in the masterclass being booked

Course Duration - 3hrs

CPD - N/A

Course Costs – £497 incl VAT - £50 deposit is required to book this course.

Sculptra

Our Sculptra® training course includes in-depth theory, facial anatomy, client consultation and treatment planning, product preparation, injection techniques, and safety protocols.

Sculptra® stimulates your skin's natural collagen production, helping to gradually restore volume, improve skin quality, and create natural-looking, long-lasting results over time.

Learning outcomes

- Salon health, safety & hygiene (Home Study)
- Anatomy & physiology (Home Study)
- Client Consultation (Home Study)
- Sterilisation & Disinfection (Home Study)
- Contra Indications (Home Study)
- Product details (Home Study)

- Practical (In Salon)

All theory work will be on the learning portal to complete at home before coming to your course.

Entry Requirement – None

Course Duration - 5hrs

Course Costs – £397 incl VAT - £100 deposit is required to book this course.

Fibroblast Skin Tightening & Skin Tag removal

The specialised handpiece emits a tiny plasma blast onto the skin which, in turn, evaporates and leaves carbon markings in the treatment area. Different techniques are used for different treatment areas. We create controlled trauma which sends the skin through a natural regeneration process. By stimulating the fibroblasts to produce collagen and elastin the result is a tightening and firming effect which can remain for up to 5 years leaving the client with fresher, younger and smoother looking skin. You can now offer your clients a real alternative to a surgical facelift.

- Immediate results
- No cutting of the skin
- No stitches
- No major trauma to the skin

Learning outcomes

- Salon health, safety & hygiene (Home Study)
- Anatomy & physiology (Home Study)
- Client Consultation (Home Study)
- Sterilisation & Disinfection (Home Study)
- Contra Indications (Home Study)

If booked with Wood Therapy course cost is £497

Lash Lift

The lash lift procedure has revolutionised old, inadequate perming techniques. Using silicone pads instead of perm rods, this new technique can lift, straighten or curl your own natural lashes to create a brighter, fuller, wide eyed look. No need for extensions and the associated aftercare, this will last you 6-8 weeks and can be combined with a tint to leave the mascara behind.

Acupuncture

Discover the art and science of Acupuncture, a respected and time-honoured therapy rooted in Traditional Chinese Medicine. This powerful treatment works by stimulating specific points on the body to help restore balance, encourage the flow of energy, and support the body's natural healing processes

Used to address a wide range of physical and emotional concerns, acupuncture is known for its ability to reduce pain, relieve tension, improve wellbeing, and promote deep relaxation. By working along the body's meridian pathways, it helps to bring the mind and body back into harmony.

Dry Cupping

Explore the benefits of Dry Cupping Therapy, a highly effective treatment used to release tension, improve circulation, and support the body's natural healing processes. This traditional technique involves placing suction cups on the skin to gently lift the tissue, creating space within the muscles and encouraging blood flow.

Wet Cupping

Discover the traditional practice of **Wet Cupping (Hijama)** — a therapeutic technique used for centuries to support detoxification, improve circulation, and promote overall wellbeing. This specialised treatment combines gentle suction with controlled, superficial skin incisions to help draw out stagnant blood and impurities from the body.

Reflexology

Discover the art and science of reflexology through this engaging, hands-on training course designed for beginners and aspiring practitioners. Reflexology is a therapeutic practice based on the principle that specific points on the feet, hands, and ears correspond to different organs and systems within the body. By applying targeted pressure to these areas, reflexology aims to promote relaxation, improve circulation, and support the body's natural balance.

Reiki

Step into the world of Reiki with this comprehensive training course designed to introduce you to the principles and practice of energy healing. Rooted in early 20th-century Japanese tradition, Reiki—meaning “universal life energy”—offers a gentle yet powerful approach to supporting balance, relaxation, and overall well-being. Throughout this course, you’ll learn how to understand and work with energy, develop awareness of the body’s natural flow, and practice foundational Reiki techniques. Guided step by step, you’ll explore hand positions, session structure, and the mindset needed to create a calm, supportive healing environment for yourself and others.
